### **DETAILED ACTION**

Applicants' arguments, filed March 20, 2008, have been fully considered but they are not deemed to be fully persuasive. The following rejections and/or objections constitute the complete set presently being applied to the instant application.

#### ***Claim Rejections - 35 USC § 102***

1. Claims 1 and 23 were rejected under 35 U.S.C. 102(b) as being anticipated by the Restaurant Wine reference as evidenced by the Clear Creek Distillery reference. Due to the amendments to the claims, this rejection is WITHDRAWN.

#### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.

Art Unit: 1618

2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

4. Claims 1 – 24, 33 and 34 were rejected under 35 U.S.C. 103(a) as being unpatentable over Perkes (WO 99/07400) in view of Shrikhande et al. (US 6,544,581).

This rejection is now applied to claims 1 – 6, 9, 10, 13 – 22, 33 and 34 and is MAINTAINED for the reasons of record set forth in the Office Action mailed September 20, 2007 and those set forth below.

Applicant's traverse this rejection on the basis that neither reference discloses or suggests the amount of active ingredients, nor provides a rationale for one having ordinary skill in the art to modify the composition of either Perkes or Shrikhande et al. to produce a composition as recited in the instant claims. Further, Applicant asserts that the results in the previously filed declaration demonstrate that compositions of the instantly claimed invention demonstrate higher efficacy at lower doses than the prior art compositions.

These arguments are not found to be persuasive. The independent claim of the instant application defines the amounts of various ingredients that must be present in the portion of the formulation that arises from the Muscat variety grape seed extract and is not based on the total composition. Both the claims of the instant application and the prior art recite Muscat grape seed extract. As these are the same materials, it follows that the amount of the various ingredients will be the same as the materials are the same. The results presented in the previously filed declaration are not commensurate in

scope with all of the claims of the instant application and therefore the showing of the declaration is not commensurate in scope with the claims of the instant application.

***New Claim Objections***

5. Claim 5 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. Claim 1 requires that the Muscat variety grape seed extract comprises at least about 70 percent polyphenolics. Claim 5, which depends from claim 1, only requires that the Muscat variety grape seed extract comprise at least about 25 percent polyphenolics.

***New Claim Rejections - 35 USC § 112 - 2<sup>nd</sup> Paragraph***

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 1 – 6, 9, 10, 13 – 22, 33 and 34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In defining the amount of ingredients present in the extract, the sum of the percentages recited in claim sums to

much more than 100 percent. It is unclear how the individual components of a mixture can sum to more than 100%.

### ***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
